

FAIRY BERRIES®

These 3/4" diameter balls produce a glowing tiny light that fades on and off slowly. Collectively, they produce a moving firefly or fairy light effect that is absolutely unique! Place them everywhere around your venue; in the garden, hanging from trees, shrubs or ceilings and even in water features, where their water resistant design allows them to float. They also look great in floral arrangements, table centerpiece accents and as Christmas Tree Ornaments. Other uses only limited by your imagination!
