

SWITCHING POWER ADAPTER

This switching power regulated adapter offers multiple voltage settings and multiple adapter tips to suit many product applications. All you need to do is select the correct voltage for your product, install the correct tip, connect to your product and plug it in. Unlike most adapters, the output voltage will be 12V when it is set on 12V. This is very important when powering LED lights. A non-regulated adapter will generally put out more voltage than it specifies causing irreparable damage.

- Power wide range of products
- 6 voltage choices
- 7 tip choices

Model: ADAP-LLAS1000
 Size: 3.5"L x 2.25"w x 2.25"h
 Pc Wt: .35 lbs
 Power: Input 120V A/C
 Power: Output 3 to 15V D/C
 Case Qty: 60, 24 lbs
 Case Dim: 22"L x 11"w x 12"h
